

Erasmus+ project „The Children of Sheherazade“

Denmark – Questionnaire for Teachers

School: Øster Åby Friskole, Denmark

Facilitator (Storyteller): Maria Junghans

1. What did you notice positively about the project?

The children look forward to being told stories.
They look forward to Wednesday when they can dream away.

2. What did you notice negatively about the project?

For some children, it can be difficult to be in a setting other than the setting they have in everyday life.

3. From your perspective: did the children who have difficulties during class time profited from this project?

If yes: how did you notice this or how was it noticeable?

I think that as the year progressed and the children got to know the structure, it also became easier for the troubled children to find peace in the stories.
